Governor - In discussing this split with our DPS HR people, with the cooperation of your office and that of the Dept. of Administration, we can have the new structure completed with some at least acting positions in place by the first week in March. The person I had wanted to head this split is the announced new DPS Deputy Commissioner John Glass, a retired Director of our "Brown Shirts;" and he is expected to start here on Feb. 12th, and as he is a proponent of this restructure he will continue and oversee this effort.

Subject: Privileg case

Commissioner Jackson:

Because I am committed to respond to as many requests from the public as possible, I couldn't keep ignoring the requests to contact Privileged or P and let her know that I care about her issue (her kids in OCS custody), I wanted to keep the conversation short but she did appreciate having an ear to hear so she spent quite a bit of time explaining her situation. As was expressed to me by another person, her story does sound like a horror story - though I know there are always two sides to it.

She is very, very frustrated with "the system", and is very sad that it seems to her the intent of OCS is to keep families apart, not bring them back together.

I assume you know the details of her case.

I trust that we're working to help her family - I don't believe she trusts that the state is working to help.

Please let me know if and what the state can do to build the Privileg family's faith that "the system" is working to help them, not hurt them.

Thank you,
Sarah
